Attendance on New York Stock Exchange Small and Market Shows Small Activity.

### A BULLISH DEMONSTRATION

Strong Movement in Pacifics Interrupted by Heavy Selling of Pennsylvania and Reading.

(By Associated Press.)

NEW YORK, Nov. 27.—There was very little activity in stocks to-day. The end-week remnant after the holiday offered week remnant after the holizaly observed with inducements to members to return to the Stock Exchange from their Thanks. giving outlings before Monday, and there was a small attendance, and languid trading in consequence. The market started off with a buillish demonstration in Southern Pacific, in continuation of the recent campaign in that stock. Union Pacific came into the movement with even great, effect, owing to the showing in its annual report of the heavy indebtedness to it of the subsidiary company, on account of advances for betterment work. This movement was interrupted by the heavy selling of Pennsylvania and the current news.

The Erig stocks did not share in the weakness of Reading and Pennsylvania. Notither did Atchison share fully in the strength of the Pacifics, its extreme divance being limited to 3-4 notwithstanding its showing of an increase in net carnings for October of £35 (22).

The minor industrials were decidedly irregular. Some of those which suffered most carly in the week were in eager demand in the loan crowd, where they commanded a premium, while shorts tought to cover their contracts. The effect was especially notable on Locomouve preferred. Republic Steel preferred on the other hand, was forced down an auduitional 3 points on renewed doubts over the maintenance of the preferred its loss at the close.

The tone of strength developed in the whole market late in the day was due to the forecast of a favorable bank statement 10-morrow. The quiet tone of the whole market late in the day was due to the forecast of a favorable bank statement 10-morrow bank statement for the full effect of the weekly averages.

The bond market was dull and rather irregular. Total sales, par value, were 11,732,600.

# WEEKLY TI . DE REVIEW

### Seasonable Temperature and Holiday Stimulate Business.

(By Associated Press.)

NEW YORK, Nov. 21.—R. G. Dun and Company's weekly review of trade to-morrow will say:

Beasonable temperatures and holiday discharge stimulard read trade. morrow will say:

Beasonable temperatures and holiday purchases stimulated retail trade, making results more satisfactory during the past week than at any recent date. Improvement was most consplcuous in heavy wearing apparel and kindred lines that nave remained dull because of the mild weather. Another encoulaging feature was the resumption of work at many mills although there is still much tile machinery, especially in the textile and iron industries. Thousands of operatives are idle because of the shut down at a number of paper mills. In view of the numerous wase reductions there is not a number of paper mills. In view of the numerous wase reductions there is not exorthly harmony between employers and workers, indicating that labor leaders appreciate the necessity of staring in the readjustment. Grain shipments increased with the approaching close of navigation of the lakes, and fright traffic was subjected to the greatest pressure of the season. But there is less than the customary complaint of delay, Railway carnings for three weeks of November averaged 5.2 per cent larger than last year.

"Textile manufacturing conditions are without alteration. Colder weather stimilated relail trade in woolens and worsteds, but as yet there is no improvement in piece goods.

Failures this week numbered 258 against 213 hast year.

for the third day's session promptly.
Among the ministers whose names were
presented to be taken on trial, was that

the Santificationists. Mr. Bishop said that

Mr. Bishop said that Mr. Futrell had thoroughly repented of his error. A number of preachers testified as to his ability and consecration, and some others spoke adversely as to his admission into the conference. Rev. G. A. Oglesby was one of the latter class, and he spoke effectively. He said he should be held in the present relation until he had proved that he had been thoroughly converted. Rev. R. C. Beaman said, "Brother Futrell has a good heart, but he has the meanest liver I ever saw. He is just as liable to give us trouble in the future as he has in the past." Rev. Mr. Greening spoke in favor of admitting Mr. Futrell. Rev. L. E. Thompson also spoke in favor of admitting Mr. Futrell. Rev. R. F. Bumpass said he would not oppose the return of Mr. Futrell. Rev. W. S. Rone said that he had a private knowledge that led him to believe that Mr. Futrell should not be reinstated, but in view of the fact that some of the brethren had stated that Mr. Futrell had repented, he would not oppose his return. Rev. Mr. Rose spoke at some length on the case in opposition to readmission. Rev. D. H. Tuttle spoke very fervently in favor of taking Mr. Futrell back into the conference. Rev. Mr. Underwood spoke in favor of readmission. On the final vote he was admitted into the conference by a large majority. The bishop commented on the case to some extent.

Several others were admitted.
The following were received into full connection at 11 o'clock, which hour was set apart for that purpose: James M. Celbrith, E. M. Snipes, W. A. Jenkins, W. E. Brown, W. P. Constable, William

The bishop made a talk of fifty minutes to the class to which he gave some whole-some advice, not only to the class, but to all members of the conference.

Thousands of Gallons Run Into River at Wilmington, N. C.

(Special to The Times-Dispatch)
WILMINGTON, N. C., Nov. 21.—One of the big tanks at the Standard Oil Company's branch plant here, the largest south of Baltimore, sprung a leak early to-day, and thousands of gallons of kerosene flowed into the river. The city docks to-night are full of it, and as a precautionary measure, Mayor Pro Tem. Yopp has authorized the employment of twenty-five watchmen along the water front to guard against a possible fire. Very little, if any, information as to the leak can be gained from headquarters or the company here. Officials say only three or four hundred barrels of a waste product has escaped, but more than that amount has been skimmed off the water and saved by boatmen and negroes, who have been carrying it out of the locks by buckstuls all the afternoon.
